

Dogtooth Project Checklist

1. Initial Brief & Quotation

Provide layout/visual and a spec sheet. Include site photos if possible.

2. Programme & RAMS

Confirm timeline and supply risk assessments and method statements.

3. Site Survey

Book and complete a survey if needed to confirm dimensions and conditions.

4. Artwork Preparation

Send final artwork files via Dropbox/Wetransfer. We'll prepare for print.

5. Production

Print and laminate murals 1-2 weeks before install.

6. Jobsheet & Induction

Return jobsheet with key details: address, contacts, PPE, parking, induction info.

7. Final Checks

We review visuals/specs and prepare materials the Friday before install.

8. On-site Installation

Dogtooth team signs in, confirms access, and installs with minimal disruption.

9. Completion & Handover

Tidy up, take final photos, and walk the site with contact.
